

Taft School District 90 has formally approved to place a \$3.2 million building referendum question for the upcoming March 20, 2012 election. Taft has a unique and rare opportunity to pursue a significant building project entitled the Future Foundation for Taft. The overall cost of the project is estimated at \$10 million which includes upgrades and/or replacement to our heating and electrical systems, much of which is original equipment. Additionally, air conditioning, roof repairs, brick work, ceilings, lighting, etc... will be included. The district has secured a 48% or \$4.8 million commitment from Capital Development Board in Springfield. Taft will also finance \$2 million of the project through the use of Alternate Revenue Bonds, which leaves the balance of \$3.2 for the referendum.

At this time, Taft needs to create a Referendum Committee for this purpose. If you are interested, please contact Mr. Rogowski as soon as possible at 815-838-0408 or at drogowski@taft90.org.
