

Welcome Back!

I hope everyone had a fun-filled and relaxing winter break. The next few months are going to be very hectic in the Junior High as we prepare for the ISATS.

8th grade will be covering the rules of exponents, functions, scientific notation, ratios, proportions, percent formula and slope of a line.

7th grade will be covering fractions and percents. They will also be completing a unit on Geometry.

6th grade will be covering decimals and fractions, along with going over divisibility rules. They will also be starting a unit on Geometry.

All classes will continue to work on solving story problems using the what and why chart.

**A few reminders: January 16th- No school. Martin Luther King Day
January 20th- Report Cards go home**

As always, any questions or concerns please feel free to email me or call 838-0408 and have the office page me. I'm available between 9:35-9:55 a.m. and between 3:15-3:30 p.m.

Mrs. Mathias
